

SANUSAN PONNUTHURAI

ABOUT ME

Hi, I'm Sanusan. Currently an undergraduate in Rajarata university of Sri Lanka. I bring a passion for technology and a solid foundation in IT studies. I'm eager to contribute my technical expertise and enthusiasm for innovation. I'm exploring opportunities to further develop my skills and make meaningful contributions in the IT sector. Excited about the future of technology and always open to connecting with professionals in the field.

EDUCATION

Bachelor of Science in IT

Rajarata University of Sri Lanka
2020-Present

I pursued a Bachelor of Science degree in Information Technology, specializing in a diverse range of subjects including Database Management Systems, Software Engineering, Web Development, and Data Analytics. Throughout my studies, I actively engaged in hands-on projects and practical applications of theoretical concepts. Notable achievements include developing a mobile application as part of the final year project. My education has equipped me with a solid foundation in IT principles and methodologies, preparing me for a successful career in the field.

Advanced Level

J/Atchuvely Central College
2018

I completed my Advanced level studies at Atchuvely Central College, specializing in the science stream. During this time, I delved into an intensive curriculum encompassing subjects such as Mathematics, Physics and Information Communication Technology. Achieving result of an A for Information Communication Technology and two S for both Mathematics and Physics.

Ordinary Level

J/Atchuvely Central College
2015

I completed my Ordinary level studies at Atchuvely Central College. During this time, I have achieved result of 5As, B, C and 2S. These studies not only equipped me with a strong foundation in fundamental knowledge but also instilled essential skills such as critical thinking, problem-solving, and effective communication. My O/L education at Atchuvely Central College has played a pivotal role in shaping my academic journey and preparing me for future endeavors.

EXPERIENCE

Front End Developer Trainee

HYFIC GEEKS (PVT) Ltd, Ward no 1, Puthukkudiyiruppu, Mullaitivu
2024.01.08-Present

As a Front End Developer Trainee at Hyfic Geeks, I'm gaining hands-on experience in React.js development, alongside HTML, CSS, and JavaScript. Collaborating closely with experienced developers, I contribute to building dynamic web applications, focusing on React's component-based architecture and state management. Engaging in code reviews and team meetings, I stay updated on best practices and industry trends. This internship is equipping me with essential skills and knowledge for a successful career in front end development.

PROJECTS

Final Year Project: Efficient Trip Planner with Navigation Support

Rajarata University of Sri Lanka
• Developed a mobile app using Java for an Efficient Trip Planner with Navigation Support.
• Integrated Google Maps API for navigation functionality.
• Collaborated in a team to design and implement innovative solutions.
• Presented project to faculty and received commendation for teamwork and technical expertise.

Neural Network Project: Airline Customer Satisfaction Prediction

• Developed a Python-based neural network model to predict airline customer satisfaction.
• Utilized TensorFlow, Keras, and Scikit-learn libraries for model development.
• Analyzed and preprocessed customer data to optimize model performance.
• Achieved high accuracy in predicting satisfaction levels through machine learning techniques.
• Presented project outcomes to peers, demonstrating the model's effectiveness.
